

**COURSE FEEDBACK 2 SEMESTER 20182019**

Course : COL729

Slot : A

Total Student in course: 6

Feedback received from: 4

**PRACTICAL COMPONENT**

	Evaluation		Organization of Lab and conducting of Experiments			Design of Experiments	
	Q1	Q2	Q3	Q4	Q5	Q6	Q7
Average(2.00)	1	0	1	0	0	0	0
Very Good(4.00)	1	2	2	1	0	1	2
Excellent(5.00)	2	2	1	3	4	3	2
Rating	4.75	5.0	4.75	3.75	4.0	4.5	4.5

**Design of Experiments**

Q1: To what extent did the experiments provide new insights and /or encourage you to think creatively?

Q2: Were adequate background material / instructions provided for carrying out the experiments?

**Evaluation**

Q3: Was the feedback on your lab performance prompt?

Q4: Was the feedback on your laboratory work useful?

**Organization of Lab and conducting of Experiments**

Q5: To what extent was analysis of observations/ results encouraged?

Q6: To what extent was systematic execution of lab work emphasized?

Q7: To what extent was the teacher involved in the practical work?

**Question : Any Suggestions or comments about the course**

- 1 -
- 2 I feel that programming part of the assignments should have been much higher. There was only one assignment which involved programming. I understand that implementing things which have been taught in the class in a limited time frame might be difficult, but I still feel there should have been more programming assignments.
- 3 None.
- 4 Nothing

**Question : How effective was the help provided by the teaching assistants?**

- 1 Good
- 2 TA was very helpful in giving valuable feedback on our results, where we could have further improved etc.
- 3 Very effective. Demos and discussions about the answer sheet were particularly insightful.
- 4 Very Good

**Question : Were the facilities/equipments adequate for the experiments?**

- 1 -
- 2 NA.
- 3 Yee
- 4 Yes.

**Question : What did you dislike the most about this course?**

- 1 -
- 2 None.
- 3 Nothing specific
- 4 Some assignments (especially lab 1) were very long, and required a lot of writing. Could've taken a demo for this assignment instead of a written submission.

**Question : What did you like most about this course?**

- 1 -
- 2 It opened up new areas like understanding IR and assembly
- 3 The assignments were well designed and gave me a very good hands-on experience with building modern compiler optimization systems.
- 4 The experiments we have done were very good at making us understand the various optimizations performed and effects of those optimizations on runtime. They also gave me a lot of practice in analyzing assembly programs.
